

FROM RUSSIA WAR!

After the collapse of communism in Russia and the establishment of democracy fears about Russia's ambition of world domination evaporated.

In 2000 President Putin took the reins of Russia in his capable but autocratic hands, and amazingly, the economy was rapidly rebuilt, assisted by oil revenues. By 2006 Russia had become the top producer of oil in the world and achieved membership of the G8 club with other economic giants.

In the last few years, Russia has demonstrated her unwillingness to be tied to any agreements and has even threatened non-compliant states with their supply of oil and gas. Their invasion of Georgia (2008) reminds the world that Russia will not be trifled with.

Bible prophecy predicts that Russia will challenge the world and invade the Middle East. Identified as "*Rosh, Meshech and Tubal*" (Ezekiel 38:2 NKJV), Russia will form a confederacy of nations, including Iran. She will invade Israel (Ezekiel 38:8). Identified in Daniel as "*king of the north*" she will invade by land, sea and air occupying Egypt also (Daniel 11:40-45).

Russia has rebuilt her navy, and is planning to move her Black Sea fleet to the Syrian Mediterranean port of Tartus. In 2008, she engaged in military manoeuvres with Venezuela, and also sent some of her oil experts to advise Venezuela. And now master planner President Putin is back!

Russian Tu-160
Black Jack bomber

The recovery of Russia is an amazing feat, and ensures that Bible prophecy is not only very much alive, but that the return of Christ is near!

Are you ready?
